## Electrical and Electronics Equipment Environmental Compliance: Regulations Management

IHS and ENHESA partner to provide  
Worldwide Regulations

**The Source**  
for Critical Information and Insight™

**Regulatory change is inevitable. It can also be costly when you are designing for export. Keeping up with changes around the world is complex and involves so many variables and risk. Any advantage you can give your company to overcome these challenges is critical.**

Managing regulatory change is very complex.

- What are your responsibilities?
- What do you have to do to comply?
- How do you monitor change?

As a manufacturer of electrical and electronics products you are responsible for compliance from design to end-of-life disposal. The IHS Electrical and Electronics Equipment Compliance Solution makes meeting regulatory challenges manageable. We make compliance easy.

**Taking the risk out of regulatory change promotes: Quicker time to market**

- Change is automatically monitored for you with email notification of changes
- A single system gives you access to all the country regulations you export to and the industry standards you need

**Engineering Excellence**

- Regulatory requirements are designed into products up front
- All Global teams operate from one consistent up-to-date regulatory information system

**Reduce your compliance risk**

- ENHESA analysis provides expert interpretation of the laws for you. The analysis comes from legal staff with 20 years in-depth regulatory knowledge and experience
- Extensive contacts with key policy makers around the world for reliability

**Time and internal resource constraints are minimized**

- Engineering processes are streamlined
- Research time is almost eliminated
- 50 countries throughout Europe, Americas and Asia are available in a single access system

**Quality Assurance**

**Always have the most current, pertinent information.**

Receive an email alerting you of changes in regulations within your defined areas of interest.

**Monitor changes more accurately.** Track changes to a list of regulatory citations, and automatically inform the right people. Comment on the applicability of each change, and record your analysis in a fully auditable environment.

**Improve Workflow**

The IHS EEE Environmental Compliance Solution makes it easy to share relevant information with individuals, groups, or your entire company.

**Reduce development time.** A single system in a consistent format eliminates interacting with multiple sources with different interfaces.

**Collaborate with anyone, anywhere.** Attach notes to any regulatory development, and then share this commentary with individuals throughout your organization.

**Share your discoveries and ideas.** As you find regulatory developments you want others to read about, send “community emails” to them without ever leaving the development you are viewing.

**Regulatory coverage is global:**

And grows based on regulatory change.

**Research Efficiently**

**Work more efficiently.** Follow links throughout each development that will take you to the actual regulatory text. Resource links take you to related data.

**Find the information that matters to you, quickly and accurately.** Through our rapid-access menus you can easily locate the documents you need in a fraction of the time. Powerful search features allow you to locate content by keyword, topic, country and regulation. Consistent data format avoids confusion.

**Value**

The IHS EEE Environmental Compliance Solution is a powerful tool.

Subscribers have the advantage of:

- Quicker time-to-market
- Reduced compliance risk
- Engineering excellence
- Workflow efficiency

**Coverage**

- Extensive global coverage — over 50 countries and adding new ones every day
- Consistent format for all country data

**Analysis**

Giving you what you need to know, helping you understand why it's important and helping you determine what you need to do.

**Understanding**

- Legislative/regulatory realities — the real story of “who does what”
- Enforcement and implementation: “what do you really expect?”

- Deep knowledge of national and local regulatory agencies, non-governmental organizations, industry and trade associations and our own multiple clients in so many industries. Giving you the whole international regulatory story

**Complete Solution**

All services: Monitoring, Analysis, Compliance Calendar and actual Country regulations are linked together to provide you the most complete international regulatory solution.

**Monitor Change Effectively**

Over 40 regulatory changes occur monthly. When regulations change, understand what has changed.

### Format

Data is in HTML and pdf. The system is available via Internet or Extranet.

### Customer Support

Onsite customer support and training are available using state of the art learning methodologies, educational approaches and tools that focus on improving project implementation.

The IHS Customer Support Management team and worldwide dealer network to provide regional language based training and support.

Online customer support and training utilizes WebEx, online IHS View, online help, and Product Tip Sheets.

An extensive staff of Customer Support professionals provides telephone support both for product and technical questions.
